#### Used in this recipe

#### Pure Honey

Smooth, sweet and perfectly balanced, generations of Aussies have grown up with Capilano Pure Honey. Made by Aussie bees and their beekeepers, our signature blend of eucalypt and ground flora honey is the taste of Australia.

#### Make the Sweet Switch

Honey tastes twice as sweet as sugar, so you need less in your baking, drinks and savoury recipes. Learn more about how to swap Capilano for sugar in your recipes [here](#).

## Method

1. Cake: Place oranges in saucepan of water and bring to the boil, then simmer for 20 minutes. Once cooked, blend until smooth in food processor and weigh 185 g of orange puree.
2. Preheat the oven to 150°C. Grease and line a 22 cm round springform tin.
3. In a stand mixer, whisk eggs for 1 minute on medium, add honey and continue whisking for 5 minutes until thick, but still a little runny. Gently fold in vanilla and reserved orange puree, followed by the baking powder and almond meal until just incorporated.
4. Pour batter into prepared tin and bake for 50 - 60 mins, or until a skewer comes out clean. Allow to cool completely before removing from tin.
5. Honeyed Oranges: Slice oranges into 5mm slices, set aside.
6. Combine honey, water and cinnamon quill in a large saucepan over medium-high heat. Stir to dissolve the honey then add the sliced oranges. Bring to the boil, reduce the heat to a simmer and cook the oranges for 8-10 minutes until the skin appears translucent.
7. Use a fork or slotted spoon to remove orange slices, rest on a plate. Continue simmering the syrup for 20 minutes until thick, then return orange slices to syrup and continue simmering for 5 minutes. Turn off heat, remove orange slices and lay them on a wire rack to cool completely. Reserve the syrup.
8. To serve: Transfer cake to serving platter, then arrange orange slices on top. Scatter with chopped pistachios, thyme and serve with syrup and yoghurt.
9. Storage: Keep for up to 3-4 days in an airtight container on the bench.
